NOTES ON DATA AND THE NJSDC/BIDC

The 1990 Census counts presented here are subject to possible corrections for overcount or undercount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The NJSDC/BIDC

This report was prepared by the New Jersey State Data Center/Business and Industry Data Center (NJSDC/BIDC). The NJSDC is a cooperative project of the State of New Jersey and the U.S. Bureau of the Census. Serving data users in the public, private, and academic sectors, the NJSDC has three main objectives:

- to expand access to and use of census and other statistics
- to provide technical assistance and analytical support in the use of these statistics
- to provide user training on timely, census-related topics.

The New Jersey BIDC is an expansion of the SDC program designed to meet the growing data needs of the economic development community.

The NJSDC/BIDC consists of a network of over 100 state, county, regional, and local agencies. The lead agency is housed within the Division of Labor Market and Demographic Research, New Jersey Department of Labor. For a complete list of the NJSDC contacts, write to: New Jersey State Data Center, New Jersey Department of Labor, CN 388, Trenton, New Jersey 08625-0388.

A variety of statistical reports from State and Federal agencies may be accessed through the NJSDC/BIDC network. Most statistics are from the U.S. Bureau of the Census' regular and special censuses and surveys. The NJSDC will publish New Jersey data from the 1990 Census of population and housing when they are available on a flow basis. Data from the U.S. Bureau of Labor Statistics, Bureau of Economic Analysis and the State and sub-state demographic and economic data prepared/compiled by the New Jersey Department of Labor are also available through the NJSDC/BIDC.

These data are made available in either printed reports, on computer tapes, diskettes, microfiche, and/or through an electronic bulletin board. NJSDC Electronic Bulletin Board (NJSDC EBB) users have access to up-to-date publicly available data for New Jersey in an electronic format. For more information on the NJSDC EBB, contact: New Jersey State Data Center, New Jersey Department of Labor, CN 388, Trenton, NJ 08625-0388.

A quarterly NJSDC/BIDC newsletter (*Garden State Data News*) contains information on data releases (including a brief summary of the data), user services, training workshops, conferences, and other relevant items.

The Report

This report presents total housing units, vacant housing units, total persons, persons in group quarters, total households, persons in households, and persons per household for New Jersey by county and municipality based on the 1990 Census.

In addition to the printed report, these data are also available through the NJSDC EBB for subscribers (see the NJSDC/BIDC description), and on diskette for a fee upon request.

Definitions

Group Quarters - The residential facilities/structures associated with a special place. A special place is a residential living arrangement other than the usual house, apartment, or mobile home. For example, a college or university is classified as a special place, while each dormitory is a separate group quarters.

The U.S. Bureau of the Census classifies group quarters into two types:

1. Institutional - Living quarters occupied by one or more persons under custody or care such as an orphanage, nursing home, chronic disease ward or prison.

2. Noninstitutional - All other group quarters such as: college dormitories, fraternity and sorority houses, rooming and boarding houses, nurses, interns' and all other staff dormitories, and halfway houses.

Household - The person or persons occupying a housing unit. Counts of households, householders, and occupied housing units are always identical in complete-count tabulations.

Occupied Housing Unit - The classification of a housing unit with a person or persons living in it as usual residence when enumerated (April 1, 1990) - or only temporarily absent, for example, on vacation. A household consists of all the persons who occupy a housing unit. If all the persons staying in the unit have their usual place of residence elsewhere, the unit is classified as vacant.

Vacant Housing Unit - A habitable housing unit with no one living in it at the time of enumeration (April 1, 1990), unless its occupants are only temporarily absent. If, at the time of enumeration, the unit is temporarily occupied solely by persons who have a usual residence elsewhere, it is also classified as vacant.
